## PROJECTS

### Explore Nest: Online Tourist Guide Platform.

25 Nov – 1 Dec, 2023

#### Key Features:

- Users access tour information, share stories, save packages to a wish list, and book later.
- Implemented JWT-secured, role-based dynamic dashboards for Tourists, Guides, and Admin.
- Encouraged user engagement with an exclusive discounted offer after three website bookings.
- **Technologies Used:** React.js, Tailwind CSS, Daisy UI, MUI, Express.js, MongoDB, Firebase SDK and JWT.
- [Live Site](#) || [Frontend Repo](#) || [Backend Repo](#).

### Travel Buddy io: Carpool and Ride-Sharing Services.

4 Nov – 20 Nov, 2023

#### Key Features:

- Logged-in users can offer, manage and edit their booked services for customers.
- Enhanced user data security using JWT and ensured a smooth network experience with Axios Interceptor.
- Introduced a visually appealing dark mode for a unique website design.
- **Technologies Used:** React.js, Tailwind CSS, Daisy UI, Express.js, MongoDB, Firebase SDK and JWT.
- [Live Site](#) || [Frontend Repo](#) || [Backend Repo](#).

### Entertainment Freak: Event Management SPA.

18 Oct – 24 Oct, 2023

#### Key Features:

- Enabled users to explore and book entertainment events directly from the website.
- Users can create an account or log in using Google and get exclusive access to upcoming events.
- Provided an enhanced user experience with AOS animations on various devices.
- **Technologies Used:** React.js, React Router, JavaScript, Tailwind CSS, Daisy UI, Firebase SDK and Netlify.
- [Live Site](#) || [Frontend Repo](#).
